OVERVIEW

Right now I am a student of computer technologies and engineering. I like to think of myself as a passionate team player, creative thinker, adaptable in various situations. My passions others than what I'm studying are foreign languages, social media, pop culture, traveling and cooking. I have proven to have great communication skills, creative problem solving abilities and friendly nature

EDUCATION

Faculty of Electrical Engineering & Information Technologies

In 2018 I have graduated from the Gymnasium Koco Racin (from Mathematics, Physics and IT studies) with excellent success (highest grades). I am in my fourth year of studies on the Faculty of Electrical Engineering & Information Technologies in the Ss. Cyril and Methodius University

SKILLS & ABILITIES

Java

Leadership skills

C programming

Communication skills

C++ programming

Ability to work in a team

LANGUAGES

My native language is Macedonian so I speak it perfectly (luckily that also means that I am able to understand and communicate in other Balkan languages), I speak English fluently, I have studied German for 7 years and I also have basic (around A2 level) knowledge in Italian.

ERASMUS + PROJECTS

My first project was in Riga, Latvia in the summer of 2016 and the theme was international cuisine, next was a project in Braga, Portugal in the summer of 2018 about sports and my last project was actually this summer in Trofaiach, Austria about the European Union.
